

Syed Abubakar Siddiq

BCA Graduate | Junior Web Developer / Software Developer

+91-6360776327 | abus76416@email.com | Bangalore, India

PROFESSIONAL SUMMARY

BCA graduate with practical exposure to front-end web development through an internship and an e-commerce website project. Familiar with HTML, CSS, JavaScript, and MongoDB, with additional training in cloud infrastructure and cybersecurity. Seeking an entry-level web or software development role where I can contribute to building and testing user-focused

EDUCATION

Bachelor of Computer Applications (BCA) SSMRV DEGREE COLLEGE, BANGLORE	2023 – 2026
Second PUC (12th) — Commerce Oxford pre-university college	2022

INTERNSHIP EXPERIENCE

Web Developer Intern — NXDesignz Studio Pvt. Ltd., Bengaluru

- Developed responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Improved UI/UX and assisted with feature development, debugging, testing, and optimization.

Cloud Infrastructure & Cybersecurity Practical Training — Data Center Skills

- Completed practical training in cloud architecture, virtualization, enterprise storage, and networking.
- Gained hands-on exposure to cybersecurity principles, security practices, and network analysis.

PROJECTS

AL NOOR Jewellery Website

- Developed a full-stack e-commerce website for an existing offline jewellery business using HTML, CSS, JavaScript, and MongoDB.
- Implemented user registration, login, product catalog, shopping cart, and order placement features

Trojan Simulation & Cybersecurity Awareness

- Created a controlled Trojan simulation using Kali Linux, Metasploit, and MSFconsole to demonstrate how Trojans work.
- Explored cybersecurity risks, detection methods, and preventive measures to improve awareness of malware protection.

Practical Skills

- Hands-on training exposure to Kali Linux, ethical hacking tools, and basic network security analysis.
- Front-end web development, responsive website design, and database integration.

Workshops & Training

- Attended workshops on cybersecurity awareness and ethical hacking fundamentals.

Teamwork

- Collaborated on academic coding, web development, and research projects, contributing to planning, implementation, and testing.

Technical Skills

Programming Languages: Java, Python, C++

Web Technologies: HTML5, CSS3, JavaScript

Database: MongoDB

Cybersecurity: Kali Linux, Metasploit, Ethical Hacking Fundamentals, Basic Network

Security

Cloud Computing: Cloud Infrastructure and Architecture (Practical Training)

Tools & Platforms: Visual Studio Code, Git, GitHub, MS Office

CERTIFICATIONS

- Advanced Diploma in Cloud Architecture & Cybersecurity – SSMRV Data Center Skills (RVETDCA & Ab Stream)
- Cyber Security Principles – SSMRV Data Center Skills (RVETDCA)
- Implementation of Cloud Solution – SSMRV Data Center Skills (RVETDCA)
- Introduction to Data Center & Cloud Technology – SSMRV Data Center Skills (RVETDCA)
- Diploma in Office Automation – Info-Age Computer Education

EXTRACURRICULAR & ACHIEVEMENTS

- Participated in cybersecurity workshops and ethical hacking awareness programs.
- Collaborated on academic projects, demonstrating teamwork and problem-solving skills.
- Explored emerging technologies in cloud computing and network security through self-learning.
